Hands-on Labs

Morning Session

Day 3 - Morning Labs

KavinSchool

Lab 3.1: Build a Multi-turn Chatbot

Conversation Context

KavinSchool

Lab 3.1: Multi-turn Chatbot

Goal: Build a chatbot that remembers user name and preferences across turns.

Requirements:

1. Define a clear purpose, persona, and scope in the system message
2. Maintain conversation history across turns
3. Remember user's name when they introduce themselves
4. Implement at least one context window management strategy
5. Handle `/clear`, `/history`, `/summary` commands
